PROFESSIONAL EXAMINATIONS

The principle objective of the Malaysian Institute of Taxation (MIT) is to train and build up a pool of qualified tax personnel as well as to foster and maintain the highest standard of professional ethics and competency among its members.

One avenue of producing qualified tax personnel is through professional examinations. As such MIT conducted its first professional examination in December 1995. To date, the MIT has successfully conducted seven examinations. The professional examinations also seek to overcome the present shortage of qualified tax practitioners in the country.
